What is Juvederm XC?

New JUVÉDERM® XC is the smooth gel filler that your doctor uses to instantly smooth away wrinkles around your mouth and nose. Over time the skin loses hyaluronic acid. And it diminishes, skin loses volume, increasing the chances for wrinkles and folds to appear. With just one treatment, you'll get smooth and natural-looking results that last up to a year. JUVÉDERM® XC is manufactured using HYLACROSS™ technology, creating a smooth-consistency gel. It is infused with lidocaine to improve comfort during treatment.
